## **Financial Aid Programs**

### **Federal Pell Grant**

This grant program is designed to assist needy undergraduate students who desire to continue their education beyond high school. Every student is entitled to apply for a Federal Pell Grant.

Eligibility is determined by a standard U.S. Department of Education formula, which uses family size, income and resources to determine need. The actual amount of the award is based upon the cost of attendance, enrollment status, and the amount of money appropriated by Congress to fund the program. The Federal Pell Grant makes it possible to provide a foundation of financial aid to help defray the cost of a postsecondary education. Unlike loans, the Federal Pell Grant does not usually have to be paid back.

### **Federal Direct Stafford**

Federal Stafford loans are low interest loans that are made to the student. The loan must be used to pay for direct (tuition and fees, books and supplies) and indirect (room, board, transportation and personal expenses) educational expenses. Subsidized loans are based on need while unsubsidized loans are not.

Repayment begins six months after the student graduates, withdraws from school, or falls below half-time enrollment status.

### **Federal Direct Parent-PLUS**

The William D. Ford Federal Direct Parent-PLUS loan is available to parents of dependent undergraduate students. These loans are not based on need but when combined with other resources, cannot exceed the student's cost of education. A credit check on the parent borrower is required and either or both parents may borrow through this program. Repayment begins within 60 days of final disbursement of the loan within a loan period. However, parents may request deferment of payments while the student is attending at least half time.

## **Return of Title IV Funds**

This policy applies to students who complete 60% or less of the payment period (see *Payment Period* definition) for which they received Federal Title IV aid. The term “Title IV aid” refers to the following Federal financial aid programs available to qualified Estelle Medical Academy students: Unsubsidized Federal Stafford loans, Subsidized Federal Stafford loans, Federal PLUS (Parent) loans, and Federal Pell Grants.

To perform the calculation, the Estelle Medical Academy determines the student’s withdrawal date (see *Withdrawal Date* policy).

The calculation required determines a student’s earned and unearned Title IV aid based on the percentage of the payment period completed by the student. The percentage of the period that the student remained enrolled is derived by dividing the number of days the student was scheduled to attend by the number of days in the period.

Calendar days (including weekends) are used, but breaks of at least 5 days are excluded from both the numerator and denominator.

Until a student has passed the 60% point of an enrollment period, only a portion of the student’s aid has been earned. A student who remains enrolled beyond the 60% point is considered to have earned 100% of the Title IV financial aid disbursed for the payment period.

Once the amount of Title IV financial aid that was not earned has been calculated, federal regulations require that the school return Title IV funds disbursed for the payment period and used for institutional costs in the following order:

1. Unsubsidized Direct Stafford Loans (other than PLUS loans)
2. Subsidized Direct Stafford Loans
3. Direct PLUS Loans
4. Federal Pell Grants

If the amount of unearned Title IV financial aid disbursed exceeds the amount that is returned by the school, then the student (or parent, if a Federal PLUS Loan) must return or repay, as appropriate, the remaining grant and loan funds. The student (or parent, if a Federal PLUS Loan) will be notified of the amount that must be returned or repaid, as appropriate.

## **Payment Period**

Estelle Medical Academy processes financial aid using the Borrower- Based, Non-term method. The academic year is divided into payment periods. The first payment period consists of half of the hours and instructional weeks as defined in the program.

The second payment period begins when a student has successfully completed the first payment period requirements and has continued on into the next scheduled course. Aid for students is packaged and disbursed using these definitions. Payment of financial aid awards are made in two equal disbursements. The first disbursement is made upon the start of the first payment period; the second disbursement will be made after start of the second payment period as defined above.

## **Withdrawal Date**

The withdrawal date used to determine when the student is no longer enrolled at Estelle Medical Academy is the date indicated in written or telephone communication by the student to the Director's office. If a student does not submit written notification, the school will determine the student's withdrawal date based upon federal regulations and institutional records.

Please note that the above policy may result in a reduction in school charges that is less than the amount of Title IV financial aid that must be returned. Therefore, the student may have an outstanding balance due the school that is greater than that which was owed prior to withdrawal.

## **Last Day of Attendance**

The last day of attendance for refund computation purposes is the last date of actual physical attendance by a student in classes. ACADEMICS

Estelle Medical Academy has adopted the following academic standards for The Professional Massage Therapy, and these standards are applied to all full-time and part-time students enrolled in an educational program.

## **Academic Standards**

Academic standards have been established which are to be met by the student for satisfactory progress throughout the educational program.

Refer to the Satisfactory Academic Progress Evaluation Points in this catalog. Students are allowed up to 150% of the normal program length in which to satisfactorily meet the requirements; this is the ***maximum program length*** in which students are allowed to complete the program.

As an Official check point, students are evaluated at the 50% program period (the maximum program length will not exceed 150% length of the program period). For courses graded on the basis of Pass or Fail, the minimum standard is "Pass" at each evaluation point. In addition, a minimum grade of "C" is required to successfully pass each course.

Students must repeat courses in which a grade of "D", "F", "I" or "W" are earned.

Attendance is vital to academic progress. Students are expected to attend all classes and clinical learning experiences. The student must adhere to the Attendance Policy, specifically as it relates to "Make-Up" of theory and/clinical coursework. In order to earn a satisfactory grade in a course, the student must complete 85% of the hours of instruction offered in all theory, laboratory and clinical coursework. Refer to the Attendance Policy for additional information.

Refer to the **Satisfactory Academic Progress Evaluation Points Paragraph**, contained in this catalog, for additional information.

## Academic Advising

The Director is available to provide academic advising as requested or needed to assist students in meeting satisfactory academic progress standards, and successfully completing graduation requirements. Contact the School Director for academic advising services. Instructors also advise students by delivering their insights in the classroom about the massage and spa industry. Instructors voluntarily tutor students throughout their time in the program; consequently, consideration is given to student effort, student responsibility, and student attendance.

### Definition of a Clock Hour

A “clock hour” is defined as 50 minutes of class, lecture, or clinical session, with a ten-minute break between sessions.

## Grading System and Grading Scale

The school’s grading scale is as follows:

Percentages	Letter Grade	G.P.A.	Description
90% - 100%	A	4.00	Excellent
80% - 89%	B	3.00	Good
70% - 79%	C	2.00	Average
* 65% - 69%	D	1.00	Unsatisfactory
* 64% - Below	F	0.00	Failure
	P		Pass
	I		Incomplete
	W		Withdrawal
	TC		Transfer Credit

*Failed courses must be repeated*

For certain Clinical/Technique Performance Evaluations The following grading system is used: **Pass or Fail.**

A student who fails to achieve a passing grade in the clinical or laboratory course, cannot progress to the next course level of clinical or laboratory.

- **Satisfactory (Pass)** – The student has met the clinical objectives based on course requirements.
- **Unsatisfactory (Fail)** – The Student has not met clinical objectives based on course requirements. Students must demonstrate overall satisfactory performance during the clinical assignments for each content area. **Students who receive a marginal rating during the course may be placed on probation during the clinical course.** Failure to improve performance too Satisfactory will result in an **Unsatisfactory** rating. A student who fails a clinical course is subject to dismissal from the program.

The Instructor has the final authority for determining the student’s grade for a course. Grades may not be changed by anyone other than the instructor. A student may appeal a final grade to his/her instructor. The scholastic progress of the student is reported at the end of each course and grades are recorded on the student’s permanent record (transcript).

Performance evaluations in Clinical and Laboratory courses are based on evidence of student achievement in meeting the competencies of the course. Clinical objectives will be measured, in part,

through direct observation of actual performance. Students have the opportunity to practice clinical skills and behaviors prior to being evaluated.

The **Competency Checklist**, used in assessment of student achievement of the course's clinical objectives, evaluates a composite of skills, which must be satisfactorily demonstrated in order for the student to receive credit. Regular evaluations are conducted, and deficiencies will be reviewed with the student.

## Satisfactory Academic Progress

Estelle Medical Academy has specific standards which students are expected to achieve in order to maintain

Satisfactory Progress in their program of study. These standards are based on grades and the completion of program requirements within a maximum time frame. In addition, the student's progress will be reviewed at the end of each course.

At Estelle Medical Academy, satisfactory progress for ALL students is defined by the following criteria:

1. Students are allowed up to 150% of the normal program length in which to satisfactorily meet the requirements. This is considered the **Maximum Program Length**.
2. Students must successfully complete 66.7% of hours attempted at each evaluation period. This is considered the **minimum completion requirement**.
3. Students must successfully meet or exceed the minimum Cumulative Grade Point Average (CGPA) of course completion standards set forth below. The evaluation points are based on the percentage clock hours attempted.

All students must meet the following minimum standards of academic achievement and successful course completion while enrolled at Estelle Medical Academy. The student's progress will be reviewed at the end of each period. Students must meet or exceed the minimum CGPA and course completion standards set forth below.

### Evaluation Periods

Students' compliance with the Satisfactory Academic Progress is divided into evaluation periods and is assessed at each of the following times:

- At the end of the first payment period (the point at which 50% of the program coursework is scheduled to be completed)

### Maximum Program Length

Federal regulations require that students complete their program within a maximum time frame of 150% of the published time length of the program, to finish the required 610 hours of the program. Students may not exceed a maximum time frame measured by the schedule to complete the hours. Once a student has reached his/her total maximum hours, they are no longer eligible to receive federal financial assistance. All transfer hours are included in the total amount attempted. Hours appear as follows:

Length of program is 610 hours in length, students are required to complete this requirement within 150% of the program timeframe for completion.

### **CGPA Requirements**

Students must meet minimum CGPA requirements at specific points during their enrollment in order to be considered making satisfactory academic progress. These will be reviewed at the end of each evaluation period after grades have been posted to determine if the student's CGPA is in compliance. Estelle Medical Academy students must achieve a Cumulative Grade Point Average (CGPA) of at least

2.0 at each evaluation point.

### **Academic Probation**

Students who do not maintain satisfactory progress for any evaluation period, will be placed on probation for the next evaluation period. If the student fails a course while on probation, the student may be withdrawn at the Director's discretion, even though the next evaluation point may not have been reached. The student's

progress will be evaluated at the end of the probationary period, and if the student's CGPA meets or exceeds a 2.0, the student will be allowed to continue, and the probationary status will be removed. Students who are on academic probation are not permitted to take a leave of absence. Students will be allowed only one period of academic probation.

If at any point it can be determined that it is mathematically impossible for the student to meet the minimum requirements, the student will be dismissed from the School.

Notification of academic dismissal will be in writing. The **Student Conduct** section of this catalog describes other circumstances that could lead to student dismissal for non-academic reasons.

As a dismissed student, a tuition refund may be due in accordance with the institution's stated refund policy.

During the Probation period students are considered to be making satisfactory academic progress and remain eligible for financial aid.

### **Appeal**

A student who has been academically dismissed may appeal the determination if special or mitigating circumstances exist. Any appeal must be in writing and must be submitted to the Director within 10 calendar days of receiving notification of his/her dismissal.

The student should explain what type of circumstances contributed to the academic problem and what plans the student has to eliminate those potential problems in the future. The decision of the Director is final and may not be further appealed. Students may appeal academic dismissals no more than two (2) times.

### **Reinstatement**

A student who has been academically dismissed may appeal for reinstatement after one term has passed following withdrawal. Students who are allowed to reinstate will be placed on academic probation for at least one evaluation period. All grades previously earned will remain on the transcript, and the maximum time for program completion will apply based on the original start date of the first enrollment.

### **Incomplete grades**

An "I" Incomplete grade is awarded if the student has failed to complete the required course work. Students receiving a grade of Incomplete ("I") will be allowed two weeks in which to complete the required work and submit it to the instructor of the course in which the grade was earned. The student will be allowed to continue attending while completing the required coursework of an Incomplete grade. If an Evaluation Point occurs during the time a grade of "I" is issued, the student's progress will be evaluated at the required evaluation point and again at the end of the two-week period in which the student was allowed to complete the coursework. If, at the end of the two-week period allowed to complete the coursework, the student has not completed the required work, a final grade of "F" will be recorded and posted to the transcript and will affect the student's CGPA. Estelle Medical Academy reserves the right to extend the time needed to fulfill the Incomplete. If the coursework is completed, a final grade will be computed and posted to the transcript. The total course hours scheduled will be used in academic progress determination.

### **Course Repeats (Failing Grades)**

Students must repeat any course in which a grade of 'D' or 'F' is earned. Failed courses may cause delays in training and may result in withdrawal from the program. If the failed course is a prerequisite, the student's training may be interrupted until the course is offered again. If the student's training is interrupted, the student will be required to withdraw until the course is offered again. At a minimum, the student will not graduate as originally scheduled. The failing grade will be posted to the transcript, and all scheduled course hours will be used in the student's academic progress determination.

### **Course Withdrawals**

A student may voluntarily withdraw from a course if he/she has not yet exceeded the attendance policy contained in this catalog. If a student voluntarily withdraws, according to the attendance policy, a grade of 'W' is posted to the transcript. If a student has been absent for more than 15% of the hours in the course, the student has exceeded the attendance policy and will be withdrawn from the course and the final grade will be 'F'. The total hours in the course are used in the student's academic progress determination for 'W' and 'F' grades. However, a grade of 'W' is not used in the determination of the Cumulative Grade Point Average.

### **Pass/Fail Courses**

Courses graded with Pass/Fail are not used in the determination of the Cumulative Grade Point Average; however, if the student receives a failing grade (Fail), the course must be repeated. The total course hours will be used in the student's academic progress determination.

### **Remedial Courses**

There are no remedial or developmental courses offered at Estelle Medical Academy. Students needing developmental education are referred to other educational facilities.

### **Non-Punitive Grades**

Grades of Pass, Fail, and Withdrawal are not used in the calculation of the grade point average. However, all hours attended are used in the student's academic progress determination.

### **Make-up Policy**

Any class work, assignments or exams missed as a result of any excused or unexcused absence must be made up. The following policies apply: ***Written Tests***

1. A student who misses a regularly scheduled test may make arrangements for a make-up test. Pop quizzes may not be made up. The grading policy on make-up tests is as follows:
  - A. If the student receives a grade on a make-up, which is higher than the class mean (average), the student shall receive a make-up grade no higher than the class mean (average). If it is lower, the

student will receive the grade earned

2. The student must contact the instructor on the student's first day returning to school to request a make-up test. The instructor will schedule the time for the test to be made up. If the student does not keep the make-up appointment as scheduled, the student will receive a zero score and failing grade for the test.
3. A student who is aware, in advance, that an absence will occur on a scheduled test day, must notify the instructor and take the exam on the date assigned. In some cases, the date assigned may be prior to the scheduled test day.
4. Any student who does not take a test in accordance with the terms of this policy shall receive a score of zero (failing grade) on the test.

### **Clinical/Technique Objectives**

1. Achievement of clinical or technique objectives may be demonstrated by successfully performing, under supervision, those objectives missed in the clinical training, and must be documented by the instructor.
2. Students must make up missed clinical objectives in the clinical and/or skills lab as outlined by the instructor.
3. Students will not be given credit for hours of make-up time and/or work

### **Add/Drop Policy**

Students may drop from or be added to the program without academic penalty within the first two weeks following the beginning date of the module if the student has not attended the course. All schedule changes must be processed by the Student Affairs Coordinator.

### **Attendance Policy**

#### **Purpose**

1. To establish acceptable standards of attendance and punctuality for all students attending Estelle Medical Academy.
2. To encourage students to pre-schedule absences in order to maintain adequate operations and minimize disruptions within the classroom.
3. To enable the student to meet required program objectives.

#### **Policy**

1. All students are expected to adhere to the standards for attendance and tardiness.
2. Students are expected to attend theory, clinical and laboratory classes as scheduled.

3. Students should call the School at least 30 minutes before class to report an absence.
4. Tardiness is defined as any time a student is not at his/her seat and ready to study as scheduled. Students are expected to be ready to commence and end school on schedule. Accordingly, arriving late or leaving early in connection with starting, ending, meal and break times is tardiness. Incidents of tardiness, which exceed the School's standards, will result in disciplinary action

### **Tardiness Policy**

1. Students arriving late for a class or leaving early are considered tardy. Tardiness disrupts the learning environment and is discouraged. Continued excessive tardiness or absences in any class could lead to disciplinary action up to and including expulsion
2. Students may not enter or exit class except during break without express permission from the instructor.
3. Students who arrive late for an exam may be admitted at the instructor's discretion, but the grade earned on the exam may be marked down up to 10%.
4. Students who arrive more than 15 minutes late to a scheduled clinical or laboratory assignment will not be admitted, and will be marked absent.

### **Attendance Standard**

**Each student is expected to maintain a level of attendance, which is at or above 85% of all scheduled hours.**

1. When a student is at 10% absence (unscheduled time off), a written warning will be issued. Continued absence above the 15 % level will result in progressive disciplinary action up to and including termination.
2. Students absent from theory or clinical classes are responsible for obtaining missed materials and information, and for meeting the course objectives.
3. Student may schedule an appointment with an instructor to get missed lecture materials or handouts and receive a remediation plan.
4. Homework must be completed and turned in on the first day the student returns to school. Credit may be given at the instructor's discretion with the approval from the Director.
5. Excessive absences can result in the student being unable to satisfactorily demonstrate required achievement of the course objectives; if such a result occurs, the student will not be allowed to advance to a higher level in the program. The student may petition to retake the course according to policy, and on a space available basis.
6. The school may require medical clearance for any communicable disease, health condition and pregnancy.

7. Students who are absent for seven (7) consecutive days may be dropped from the program, at the Director's discretion.
8. **Clinical Internships: Students are required to complete 100% of their clinical hours.** If students miss any clinical time, arrangements for make-up time must be made with the clinical site supervisor. Students will not be considered to have completed their clinical internships until the site supervisor has certified all required attendance hours and documentation has been received.
9. Termination from the program will occur for any student with absences in excess of 20% in each course the student is currently enrolled.
10. If a student does not return from Leave of Absence the student may be terminated.

### **Additional Attendance Requirements**

#### Leave of Absence (LOA)

An approved Leave of Absence (LOA) is a temporary interruption in an active student's program of study. LOA refers to the limited time period during a program when a student is not in attendance. The following conditions may be considered:

- Medical (including pregnancy)
- Family Care (childcare issues, loss of family)
- Member or unexpected medical care of family)
- Military Duty
- Jury Duty
- Financial Hardship

A student may be granted a Leave of Absence (LOA) if LOA request is submitted in writing, which includes the reason for the request, prior to the leave of absence. If unforeseen circumstances prevent the student from providing a prior written request, the institution may grant the student's request if the institution documents its decision and collects the written request within 35 days of the student's last date of attendance.

The total time requested off must not exceed 180 days (cumulative) in a consecutive 12-month period.

Failure to return from an approved leave of absence will result in termination and may have an impact on loan repayment, including exhaustion of some or all of the grace period. The Financial Aid Office will provide an explanation of the possible impact on loan repayment if an approval for an LOA is issued.

Students receiving a n LOA may not receive further financial aid disbursements until returning to active status.

## **Withdrawal and Readmission**

### **Withdrawal**

A student has the right to withdraw from a course at any time. When a student withdraws from any program, the student must give written notification of withdrawal. The student is required to clear all obligations in order to receive a withdrawal in good standing.

Failure to comply with this policy means that Estelle Medical Academy may not honor any request for transcripts, letters of recommendation, request for information, and/or readmission. Upon a student's withdrawal from the program, the School will perform appropriate refund calculations. However, if a student owes any tuition to the school, it is due immediately.

### **Readmission**

A student who has withdrawn from a program, and is interested in returning, may apply for readmission. Readmission is dependent upon fulfillment of all conditions set forth at time of withdrawal. Applications are reviewed, and the student is informed in writing of readmission eligibility. Readmission will be on a space available basis.

A student who has been terminated from a program for unsatisfactory academic progress and/or violation of the attendance or conduct policy may apply for re-admittance. A fee of \$100.00 will be charged for readmission. If readmitted, the student's satisfactory progress status will be the same as it was upon leaving the School. Therefore, if a student was on probation, he/she would continue on probation when readmitted.

## **Student Services**

### **Student Guidance**

Estelle Medical Academy's staff and faculty members strive to maintain close communication with our students. As deemed appropriate, a staff or faculty member may refer the student to the Director.

Student Guidance is considered one of the School's most important and valuable services. Vocational and personal guidance begins at the time a prospective student indicates an interest in attending Estelle Medical Academy; hence, guidance continues throughout and beyond the completion of the program. The goal of the School is to support and guide students and assist them in reducing or eliminating barriers that may interfere with their studies and ultimately their success.

Should the student become aware of a drug or alcohol problem, or experience emotional or personal challenges affecting performance, the school will attempt to provide referrals to appropriate community services.

### **Orientation**

Prior to beginning classes at the Estelle Medical Academy, all new students attend an orientation program.

Orientation facilitates a successful transition into Estelle Medical Academy. New students are required to attend regardless of their prior school experience. At orientation, students are acquainted with the campus, the administrative staff, the faculty and their peers. The director and the administrators explain the ways in which they assist students and clarify students' rights and responsibilities.

Student Handbooks are distributed and explained at this session. Students are introduced to the educational system, services, policies and procedures.

This combined effort is designed to provide continuous, consistent and supportive services that are intended to inform and guide the student in all aspects of their educational experience.

Through well-established professional standards of conduct for its representatives, Estelle Medical Academy holds equally high expectations of its students.

Procedures regarding Disciplinary Action and Termination are uniformly administered based on the degree of seriousness and nature of the misconduct.

In all cases, the Director will participate in the review and decision-making process of all incidents of unacceptable conduct and will take the appropriate action.

Students who engage in misconduct are subject to a verbal warning with a memo placed in their academic file. The student may be placed on disciplinary probation for the second offense which will require the student to be monitored for the remainder of his/her academic career at the school. The Director reserves the right to terminate the student immediately if the offense is severe. Based on the severity of the misconduct, the student may not receive a written warning. If, after receiving a third written warning, student's behavior is not corrected (misconduct is repeated), the student will be terminated.

### **Grievance Procedures**

It is the policy of Estelle Medical Academy to have a procedure and operational plan for handling student complaints, including decisions regarding suspension and termination.

A Student Complaint Procedure is available to any student who has not had a complaint resolved.

The purpose of this procedure is to provide a prompt and equitable process of resolving student complaints.

### **Informal Complaint Process**

1. Students with grievances should first meet with the Instructor. If the complaint is not related to the educational program, the Instructor will advise the student to contact the appropriate School

representative.

2. After meeting with the Instructor, if the student believes that the concern has not been appropriately resolved, the student should then contact the School Director. If the School Director is the Instructor for the course, the student can contact the School Owner.

### **Formal Complaint Process**
